Abstract

Introduction

Results

• Fig. 1: Schematic

Pageranks of the same paper vary depending on which field you're looking at

This variance is not entirely field independent

Here's a webapp

Methods

- Data Source/date Heading inclusion criteria Data facts
- Building citation networks Inclusion criteria Combining networks
- Shuffling citation networks Shuffle details, cite Erdos
- · Splitting citation networks
- Running Pagerank
- Calculating the percentile score Also diff in percentiles
- Server details Heading inclusion criteria Journal inclusion criteria

Conclusion
